

MANUAL-OPENING PULL-OUT TRASH CANS

City

A unique system for complete separate waste removal, with an original design. Careful study of the design and shapes to make a product that is totally ergonomic and easy to use, developed in collaboration with "Lineaguida".

FEATURES

- Fully recyclable plastic product
- Full extraction ball bearing sliders
- A unique hatch with a flap to dispose of small waste
- The upper shelf can be used to store objects (detergents, sponges, etc.)
- All the bins have a bucket and a lid with an odor filter (which can be regenerated by washing for up to 50 times)
- Space saving shaped side
- Easy to assemble with just 4 screws

Space saving shaped sides

A hatch that flips open for the disposal of small waste

Upper tray to hold objects

Upper shelf to hold objects

A hatch that flips open for the disposal of small waste

Lid with an anti-odor filter that can be regenerated

Space saving shaped side

Support ready for fitting
